DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species 1, controlling deformation of a table and/or workpiece (claims 32, 34, 36, 40, 43, 46, 49, 52, 55, 58, 61, 69, 81, 73, 77).

Species 2, controlling the temperature of a table by flowing fluid through the table (claims 33, 35, 37, 41, 44, 47, 50, 53, 56 and 59).

Species 3, controlling the temperature of a table or holder by the flow rate or temperature of an adjusting fluid (claims 38, 39, 42, 45, 48, 51, 54, 57 and 60).

Species 4, controlling the temperature of a cloth on a table (claims 62, 64, 70, 74, 78, 82, 86 and 90).

Species 5, controlling the temperature of a work piece, (claims 63, 65, 71, 75, 79, 83, 87, 91).

Species 6, controlling the placement of work pieces on a work holder (claims 66, 72, 76, 80, 84, 88 and 92).

Species 7, a work holder, (claim 93).

Species 8, a work holder, (claim 99).

Species 9, a work holder, (claim 100).

Species 10, a work holder, (claim 102).

Species 11, a work holder, (claim 103).

Species 12, a work holder, (claim 104).

Species 13, a work holder, (claim 105).

Art Unit: 3723

Species 14, a work holder, (claim 106).

Species 15, a work holder, (claim 107).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The following claim(s) are generic: no claims are generic.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: they lack a single apparatus or method of controlling the deformation of the table or the work holder.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 3723

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
